Samuel Rowe

Bowie, MD | sammike9478@gmail.com | (202) 276-7140 | LinkedIn | GitHub

Professional Summary

Full-stack engineer and Computer Science student at the University of Maryland with hands-on experience building and deploying complete web applications end-to-end. Skilled in JavaScript, Node.js, Express.js, React, and MongoDB, with a strong foundation in REST API design, database management, and responsive frontend development.

Education

University of Maryland College Park, MD
Bachelor of Science, Computer Science. *Expected 2027*

Experience

Website and Tech Intern June 2026 – August 2026
Pregnancy Aid Centers, Inc.

- Updated and improved the clinic website, enhancing online content organization and overall site quality.
- Provided basic tech support including troubleshooting computers, printers, and peripheral devices.
- Assisted with small technology and creative projects to support clinic operations.

Front Desk Receptionist Sept 2023 – May 2025
College Success Scholars (CSS) Program, University of Maryland *College Park, MD*

- Handled incoming phone calls and emails for the CSS program, ensuring timely and professional communication.
- Maintained a welcoming and organized front-desk environment for program members and visitors.
- Tracked daily room attendance using spreadsheet forms to monitor compliance with the weekly required-hours policy.

Projects

Budget Manager https://newbudgetmanager.onrender.com/
Node.js, Express.js, MongoDB, EJS, JavaScript, CSS

- Built a full-stack web application using Node.js, Express.js, and MongoDB for data storage and user account management.
- Implemented expense tracking features including adding and deleting transactions, clearing records, and user registration.
- Designed a multi-page UI supporting dynamic budget updates and real-time feedback when exceeding budget limits.

Terp Review Explorer https://terpproject.onrender.com/
Node.js, Express.js, EJS, SQL, JavaScript, CSS

- Built a full-stack web application displaying professor and course ratings by integrating the PlanetTerp API.
- Implemented autocomplete search functionality and dynamic server-rendered result pages.
- Wrote SQL queries with AlaSQL to aggregate and analyze review data.

Professor Review Rating Prediction (NLP)
Python, Pandas, PyTorch

- Built an NLP system to predict star ratings from professor reviews using transformer-based models in PyTorch.
- Processed 2,000+ student reviews sourced via the PlanetTerp API.
- Fine-tuned a pretrained transformer model on text reviews, achieving approximately 75% accuracy.

Student Performance Prediction
Python, SQL, Pandas

- Built KNN, Decision Tree, and Naive Bayes classifiers to predict exam pass/fail outcomes from survey data.
- Extended the system with multi-class classifiers to predict letter grades (A through F).
- Applied regression models to predict numerical grades and evaluated performance using R-squared and RMSE.

Certifications

- IBM SkillsBuild Data Analytics Certificate, IBM, Issued Jul 2026

Skills

Web Development: JavaScript, Node.js, Express.js, React, REST APIs, HTML, CSS, EJS, Fetch API, PHP
Databases: MongoDB, SQL, AlaSQL
Languages: Python, Java, C, OCaml, Rust
Data & ML: Pandas, PyTorch, NumPy
Tools: Microsoft Excel
